# Git & Github

What is git and how does it work?
https://docs.github.com/en/get-started/using-git/about-git

Install and set up git in order for it to work on your computer
https://docs.github.com/en/get-started/quickstart/set-up-git

Generate an ssh key on your computer to later link it to your github account
https://docs.github.com/en/authentication/connecting-to-github-with-ssh/generating-a-new-ssh-key-and-adding-it-to-the-ssh-agent

Link your computer to your github account and grant access to it using the ssh key generated
https://docs.github.com/en/authentication/connecting-to-github-with-ssh/adding-a-new-ssh-key-to-your-github-account

Git commands cheat sheet: here's the list of the most commonly used commands in git
